All YSF Specialty Gift baskets are old style agricultural baskets made from real wood in the USA and tapered for easy filling, they come filled to the brim, wrapped and decorated with a beautiful bow.

Every basket starts with a lining of fresh straw, then we add a selection of produce suited to the type of basket. We then finish off each basket with a carefully curated assortment of condiments, herbs, sauces, syrups, sweets, & teas to provide a delicious and unique mix of culinary delights for the recipient.

There are three sizes of YSF Gift baskets available:
